1 December 1960

	MEMORANDUM FOR : Deputy Director (Plans)	
	SUBJECT : Compensation Status 25X1A2d1	
	1. This memorandum contains a recommendation for DD/P approval.	
	Said recommendation is set forth in paragraph below. 25X1A2d1	
	2. The adopted compensation concept for is to compensate	
	according to the degree of risk associated with the individual's assignment.	
	In implementation of this concept three different levels of compensation	25X1A2
	have been established in the standard contract. Two are associated	
	with risk while the other is applicable only for those temporary periods	
	that the individual is grounded for medical or similar reasons. The risk	
	categories and their level of compensation ares	
	a. \$1750 per month for those periods that the	25X1A2
	available for flight duty in the Article and other aircraft but	
	only for the purpose of testing, training and maintaining proficiency,	
	and	
	b. \$2500 per month for those periods that the individual is	
	available for overflights.	
	3. From the inception of the IDEALIST program to the recent past, all	25X1A2
	overflights were to be and were conducted by who were permanently	20/(1/(2
25X1A2d1	assigned abroad. Thus the physical location of a determined	25X1A2
25X 1A201	whether he was or was not available for overflight missions and the standard	
	contract tied the two levels of risk compensation to the physical	
	location of the second in an effort to avoid the problem of using the	
	tarm overflight in what otherwise was a relatively sterile document.	

**Approved For Release 2001/09/05 : CIA-RDP33-02415A000100260004-7** 25X1A2d1
